

Insulated Sandwich Walls

Manufactured in the USA by

Insulated Sandwich Walls

Insulated Sandwich Walls

A structural, load bearing, insulated precast building envelope system that provides reliability and versatility for commercial and industrial buildings

County Prestress' Insulated Sandwich Walls are an efficient and economical material choice for various climates and large-scale projects that demand installation efficiency and lasting performance at a cost savings. Our PCI-certified production facilities are equipped to produce higher volumes of product with shorter lead times, accommodating any construction schedule. We manufacture prestressed wall panels up to 15' wide and 65' long with greater depth for enhanced R-value.

Insulated Sandwich Walls

Our Insulated Sandwich Walls are manufactured to:

- Meet project specifications and applicable building codes
- Lower life cycle costs
- Provide resilient strength and reliable durability
- Minimize site disturbance
- Have specified R-value
- Offer excellent resistance against fire, wind, and forklift damage
- Reduce maintenance
- Increase design flexibility

Design and Engineering Experience

County Prestress' experienced engineering and design team will partner with you from the design phase of the project to the coordination of production, delivery, and erection schedules. Our engineers work with you to prepare submittal drawings that ensure you get the safest, most reliable and aesthetically pleasing final product.

Your Full-Service Partner

Commercial and industrial construction professionals rely on County Prestress' responsive project management team to support them through every phase of construction, utilizing the highest quality prestressed and precast products. Our team performs extensive quality assurance checks on products before, during, and after casting, as well as when they arrive on site, to deliver satisfactory results. Rely on us to help make the difficult projects simple.

Insulated Sandwich Walls

County Prestress is your source for reliable concrete construction solutions. We supply hollowcore, precast concrete double tees, insulated sandwich walls, and bridge girders to the greater Midwest, including Illinois, Indiana, Iowa, Kentucky, Michigan, Missouri, Ohio, Tennessee, and Wisconsin.
