

CASE STUDY

PROJECT DETAILS

Project Name:

Mount Comfort Logistics Center Buildings 1 & 2

Location:

Greenfield, IN

Property Owner:

Ambrose Property Group

Project Architect:

JRA Architecture

Project Engineer:

Smith / Roberts & Associates Inc.

Project Erector:

Sealed-Rite Inc.

Key Products:

Insulated Sandwich Walls

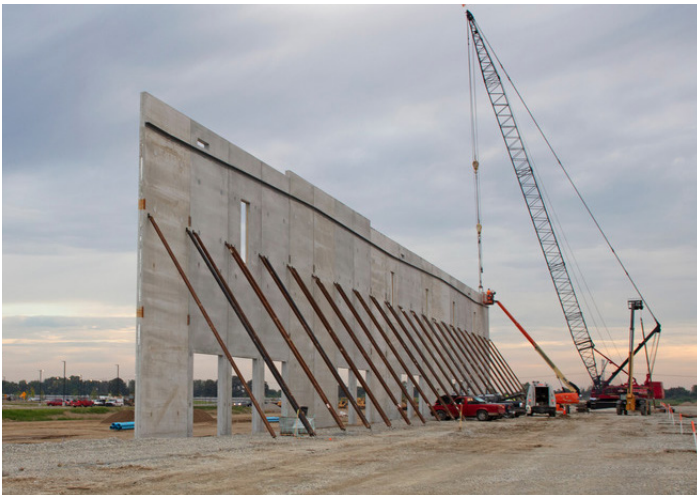

Insulated Sandwich Walls Supplied by County Prestress Accelerate Construction of Expansive Logistics Center

Solutions: Large-scale distribution center; prestress wall panels offer lasting performance

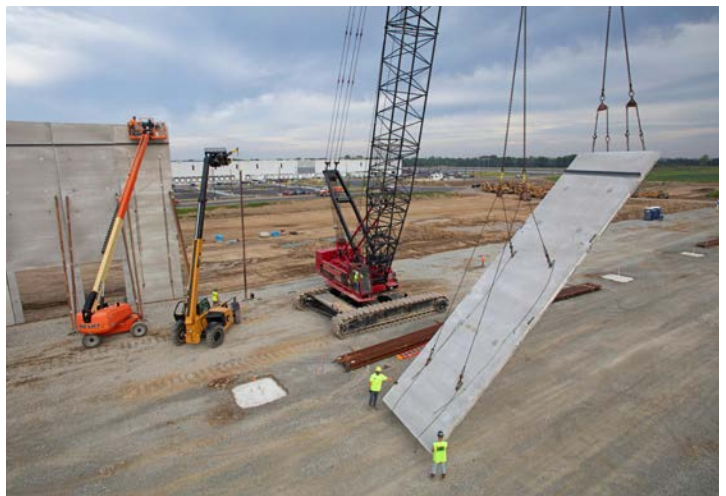

Mount Comfort Logistics Center is an emerging distribution and light manufacturing park, built to accommodate the growing demand for warehouses. The number of businesses in Mount Comfort, IN has increased by 40 percent in recent years. Its convenient location, near four interstates, is advantageous for companies seeking significant transportation savings.

With plans to build at least seven expansive facilities within three years, project leaders depended on efficient building materials with lasting performance. A solution was found in County Prestress' Insulated Sandwich Walls. County Prestress manufactured more than 300,000 SF of concrete wall panels for Mount Comfort Logistics Center Buildings 1 and 2 with unmatched consistency and speed.

Continued on page 2.

Insulated sandwich walls are an economic choice for large-scale projects. County Prestress manufactures ready-to-install wall panels that accelerate construction, reduce cost, and maintain efficient sites. Insulated sandwich walls promote ease and speed of installation, allowing each building to be erected in less than two weeks. These high-performance structures will resist the effects of weather and wear and maintain their structural integrity and appearance for decades to come.

The timely completion of Buildings 1 and 2 were essential in keeping the larger Mount Comfort Logistics Center project on schedule. Additional warehouses, supplied by County Prestress, will be completed by the end of 2022.

County Prestress' Insulated Sandwich Walls proved as a reliable solution for the Mount Comfort Logistics Center. Use our insulated sandwich wall panels for your next project by contacting our Customer Service Team at (708) 562-7700.

County Prestress manufactures ready-to-install wall panels that accelerate construction, reduce cost, and maintain efficient sites.
